LAB-PROVEN NEW DEVICE KILLS BACTERIA, VIRUSES AND FUNGI IN MINUTES

Elk Grove, CA – Skin lesions. Boils. Bacterial infections. Excruciating pain. Fungus. Hospital visits. Surgery. These are not the kind of experiences nail technicians want to give – or get.

Nail technicians need powerful, affordable solutions to protect themselves and their clients. The award-winning Germ Terminator™ PRO combines lab-proven 99.9999% germ-killing technology with an easy-access design.

The patented treatment process takes only minutes: implements are first exposed to steam from distilled water (212°F/100°C), then heat-dried and auto-stored in a hygienic chamber. The FDA 510(k)-cleared medical device uses only 3 by 5 inches of space and plugs into a conventional 110v electrical outlet. Priced at \$129 per unit, the Germ Terminator™ PRO requires only distilled water to operate.

The Germ Terminator™ PRO is compatible with other products in Backscratchers' Salon Aseptic Sanitation System®, including Cavicide®, a medical-grade disinfectant. We recommend pre-cleaning implements with Cavicide® to remove visible matter before placing them in the Germ Terminator™ PRO.

Independent lab testing was performed on these representative species:

- Human Immunodeficiency Virus (HIV) – Type 1
- Herpes Simplex Virus – Type 1
- Hepatitis C Virus
- Candida albicans
- Staphylococcus aureus
- Coli
- Salmonella choleraesuis
- Listeria monocytogenes
- Porphyromonas gingivalis
- Neisseria meningitidis
- Influenza A Virus (Common Flu Virus)
- Rhinovirus (Common Cold Virus)
