### SEPTIFILE® SANITIZABLE FILE SYSTEM: AN ECONOMICAL SOLUTION TO SALON SANITATION

Elk Grove, CA –SeptiFile Sanitizable File System cuts storage requirements in half, costs less than conventional files and is safe for both nail techs and their clientele.

Compatible with all Backscratchers systems and other products, SeptiFile can be used to blend, file, shape and finish both natural and artificial nails.

The SeptiFile Sanitizable File System consists of flexible plastic handles, with adhesive abrasives in six grits (100, 180, 240, 600, Smooth Buffer and Shine Buffer). Simply peel and stick abrasives on each side of the SeptiFile handle to customize each service. After use, peel and toss, then disinfect the handle. Backscratchers recommends a 10-minute soak and/or precleaning with Cavicide disinfectant and then placing in the new Germ Terminator PRO, an appliance that kills 99.9999% of germs in minutes.

#### Sanitizable Handles

- Two-sided handle can be personalized with any of the abrasives
- Disinfect the handle and replace with new abrasives after each service
- Available in packages of 6 handles

#### Replaceable Abrasives and Buffers

- Available in 50-ct. boxes in six different grits: 100, 180, 240, 600, White Smooth Buffer and Gray Shine Buffer
- Assorted 50-ct. box available with 10 each of 100, 240, 600, White Smooth Buffer and Gray Shine Buffer
- **SeptiFile 6-Pack:** all six abrasives in plastic storage box, with a clear, nonbreakable File Storage Tray and six sanitizable handles

---
