GLOSSARY: GEL PRODUCTS AND HAND CARE

VIP ONE-PHASE GEL SYSTEM

VIP Gel Aqua

Transparent, durable, medium-consistency gel. Cures under a 36-watt UV light in 90 seconds. Can be used as a one- or two-phase gel.

VIP Gel White

Very thin consistency gel. No strength properties. Use only for color over VIP Gel Aqua when wanting to achieve a French Manicure look. Cures under a 36-watt UV light in 90 seconds.

Gel ICE

Ultra gloss gel without cohesion layer. Does not need to be wiped off after cure time.

Designer Gels

Colored gel for nail art and color French tips. No strength properties. Use only for color in a two-phase application. 11 colors now available: red, yellow, blue, silver, gold, violet, black, platinum, metallic red, pink and white.

Glitter Designer Gel - Moondust

Medium consistency gel with fine sparkle flecks. Should be used as part of a two-phase application. Can be used as a sculpting gel, but be aware that overworking can cause flecks to dislodge.

Glitter Designer Gel - Diamond

Medium consistency gel with large sparkle flecks. Should be used as part of a two-phase application. Can be used as a sculpting gel, but be aware that overworking can cause flecks to dislodge.

Gel Brushes

#4 – Smallest width

#5 – Medium width

#6 – Largest width

Lightweight, high-quality plexiglass-handle brush used for gel application and design.

UV Light

36-watt UV light with timer. Replaceable 9-watt bulbs available.

HAND CARE

Cool Ice Hand Refreshing Gel

Cools and refreshes as it cleans. Can be used during the manicure process. First step of Natural Hand Care treatment.

Stone Hand Peeling Treatment

Exfoliating hand scrub with apricot and pumice abrasive. Helps to smooth and soften hands during the manicure process. Second step of Natural Hand Care treatment.

Mango Hand Creme

Easily absorbed into the skin. Pleasant mango fragrance. Third step of Natural Hand Care treatment.
