THE ORIGINAL DIP SYSTEM

Don't be fooled by all of the new (copycat or me too) products that have come out on the market recently

For 20 plus years nail techs and clients around the world have come to enjoy the benefits of the Backscratchers Extreme Dipping System.

- Fast and easy application
- NO Damage to the natural nail
- NO Acrylic Odor
- NO Light
- NO Primer
- Natural looking
- Strong and lighter

NEW!

Now
available
in shaker

dispensing.

A new way to apply

Easy to use shaker tops give you one more option to apply colored powder. Great for fills. Glitter also available in shaker top.

THREE WAY

1 Dip

Over the years Backscratchers has perfected the dipping process. Finish Glaze and Glaze Dryer along with our proprietary powders. That's what makes it the Best and fastest with easiest application on the market.

With other products on the market you need to use 3-7 bottles of products to do a nail. You have to ask yourself.

- Does it damage the natural nail?
- Do they use a primer?
- Is it time or cost effective with all those bottles?
- Do I have room for all that on my table?

Backscratchers is the **ORIGINATOR** of the Replaceable File

We know millions of nail professionals worldwide rely on our quality products. In turn, we love sharing our hard earned insider knowledge to help them thrive in their region. To achieve this objective we invest a great deal of time & money to train our staff of educators. Educators travel tirelessly to trade shows, beauty schools, and other industry events to inspire, train, and share business wisdom with nail professionals.
